Education

University of the Cordilleras Gov. Pack Rd. Baguio City
Bachelor of Science in Information Technology
Deans Lister

Experience

Freelance
Web Developer July 2025 – current

- Designed and developed full-stack web applications with responsive user interfaces, backend services, and database-driven functionality.
- Built an emergency dispatch and volunteer coordination system using React, Python/FastAPI, PostgreSQL, and Redis to manage service requests and coordinate volunteer responses.
- Developed administrative systems featuring student record management, enrollment workflows, dashboards, and reporting functionality.
- Integrated REST APIs, database operations, and backend services to support data processing and application workflows.
- Used Git and GitHub for version control, debugging, and maintaining clean, modular, and maintainable code.

Money Trees La Union
Frontend Web Developer Intern May 2025 – July 2025

- Developed and maintained core features of a mobile app using React Native, Expo, and Solito framework
- Built responsive login, registration, and account verification flows with secure authentication handling
- Engineered user-facing dashboards for customers to view, save, and book categorized services
- Conducted QA testing and iterative debugging to ensure smooth app performance across Android and iOS
- Refactored styling components for modularity and maintainability using Tailwind-like utility-first conventions
- Utilized Git and GitHub for version control and workflow collaboration in an Agile setup

University of the Cordilleras Gov. Pack Rd. Baguio City
IT Systems Support April 2024 – December 2024

- Gained hands-on experience diagnosing and fixing computer issues, including both hardware (e.g., RAM, hard drive replacements) and software (e.g., OS reinstallation, driver issues, virus removal).
- Provided technical support for school offices, PC setups, and other technical assistance, improving troubleshooting and communication skills.
